Large Weighing Pan for the GX-L/GF-L Series

GXL-14

A&D Weighing

Larger Size. Broader Possibilities.

The GXL-14 is an optional large weighing pan designed for the GX-L/GF-L series of high-capacity precision balances. It replaces the standard pan, making it easier to weigh oversized items that extend beyond the original pan's dimensions.

GXL-14 installed on the GX-L(S) Series

- ✓ **500 × 500 mm Weighing Pan** — Ideal for large or bulky items
- ✓ **Easy Replacement** — No mechanical changes required
- ✓ **Swing Arm Compatible** — Use in upright (fully tilted) or lowered positions

Note) On models ≤ 42 kg, capacity is reduced by approx. 6 kg and auto sensitivity adjustment is disabled. Pan replacement may be restricted by law in some countries, for example on legal-for-trade models.
